The *Metatrader* Platform

Before you can start placing your trades you need somewhere to place them

Metatrader is superb industry standard software that comes bundled free with your spread bet account

It's charting software and your order platform all rolled into one

Almost all good brokers offer a Metatrader account and they'll all have their own installation instructions...

It's a simple case of downloading a file and installing it on your computer (PC & Mac compatible)

**Very quick and easy
Takes 5 minutes**

I'll give you a link to our recommended spread bet brokers on the resource page of this website

Simply follow the instructions they give you during the account opening process and you'll soon have Metatrader up and running

So I'm going to give you a quick guided tour of the software now so you know what to expect…
