

# How to Profit From This Program

**Welcome to the Trader's Nest  
Forex Breakthrough Academy!**

**Me: Rich Fitton**

**By the end of this course you'll  
be able to...**

**1) Start with a list of markets  
(any size list) and quickly find  
the best candidates to trade at  
that time**

**2) Use simple but effective tools to analyse the chart of each market - it lets you see there is enough profit available before placing any trades**

**3) Find specific entry points for your trades – know exactly when (and how) to jump in**

**4) Quickly get out of trades that don't move as planned. This is very important – all about proper risk management**

**5) Rake your profits off the table when the time is right!**

**You'll know everything...**

**From choosing the markets to  
follow, right through to placing  
your orders in the right way**

**There is a bit of theory and  
learning we need to work  
through together...**

**It's all covered step by step in  
short 'over-my-shoulder' video  
screenshot sessions**

**You can watch and absorb the  
information – take notes  
where you feel you need to**

**But the real learning is done by  
taking ACTION!**

**There are short quizzes and  
homework tasks dotted  
throughout the course...**

**Please do take the time to  
complete them – it's how you'll  
really take on board the  
information I have to share  
with you**

**And ultimately... It's the best way for you to profit from the tools and strategies you'll soon have at your fingertips.**

**Coming next... overview of the  
course structure and a bit of  
background information...**
