Exiting Trades

Forex Breakthrough Academy has been written and designed for educational purposes only. There is a risk of loss in all trading. Spread Betting carries significant risk and should only be undertaken by those who can afford to lose some or all of their investment. The Forex market is by its nature speculative and can be volatile. Past performance is not indicative of future results. Before investing, or if in doubt about the suitability of an investment please seek independent financial advice.

Spread Betting Account

In the UK you may wish to open a spread-betting account to trade the strategy outlined in Forex Breakthrough Academy. We refer to GKFX Capital as we believe they are the best broker to use for this strategy, of course it is possible to use other platforms if preferred and we have mentioned more on the website resources page. Canonbury Publishing Ltd receives a commission from GFKX Capital and other brokers. © Canonbury Publishing Ltd & Perum Ltd

Now you know how to enter your trades, you need to know how to exit them...

There are 3 ways to exit...

The market reaches your Profit Target and closes the trade...

The market moves against you and your protective Stop Loss order is hit...

The market starts to move but hits your Trailing Stop Loss to close the trade

We'll be looking at Profit

Targets in the next module...

your profit target.

In this module we'll be looking

at exiting trades that don't hit

You'll be able to...

1) Use the Stop Loss order to manage risk and exposure on each trade you place

2) Know how to 'trail' your

Stop Loss behind the market to
reduce exposure and lock-in
early profits
