Spread Betting Account

In the UK you may wish to open a spread-betting account to trade the strategy outlined in Forex Breakthrough Academy. We refer to GKFX Capital as we believe they are the best broker to use for this strategy, of course it is possible to use other platforms if preferred and we have mentioned more on the website resources page. Here's another option you can use to make potentially huge profits...

It does need a bit of patience

You won't see these opportunities everyday but do stay alert...

When they come around they could make you a small fortune

It's all about spotting highprobability Profit Targets that allow enough room for you to enter 2, 3, 4 or more separate trades

You might scale into your position over 2 or 3 days as the market moves

And all individual trades are aiming for the same Profit Target

It means you can end up with many, many multiples of reward against risk on your trades

Here's an example...

Use the Core Strategy principles to get into multiple buy positions...

Use the trailing stop to get the trades to a breakeven position...

And then try to hang on to them right up until the big profit target

Here's how it might look...
