

# Course Wrap Up

**So it's almost time to launch  
your first campaign...**

**We started out looking at how  
money is made simply by  
keeping probability on your  
side...**

**Being the owner of the game  
instead of the gambler**

**We've seen how to own the  
game when it comes to Forex  
trading by keeping the scales  
tipped in your favour**

**Always seeking the path of least  
resistance in any given  
market...**

**Using your tactical entry points  
and exit points to move in and  
out of the best candidate  
markets...**

**And standing aside when  
conditions do not fulfil your  
criteria**

**We saw in great detail how to  
apply the 5 phase Core  
Strategy...**

**How you might trade even if  
you choose not to sit at the  
trading screen...**

**And how to build those big  
profit positions when the  
opportunities present  
themselves**

**But this isn't the end of your  
education...**

**In fact - It's only just beginning**

**We'll still be getting together on  
the webinars and in the class  
forums**

**There's plenty we'll be doing  
together yet**

**But it's now time to start  
applying what I've shown you  
in live market conditions**

**Because you the only way to  
complete your education is  
through real world experience**

**There's no rush...**

**Just take everything at your  
own pace**

**And remember I'm always right  
here for you**

**So for now it just remains for  
me to wish you the very best  
of luck...**

**And Happy Trading!**
