# FXBA Webinar 10/11/15 - the points I used for fib measurements

GBPUSD

1) Measuring the latest dominating up-move so we can can find some fib retracements...

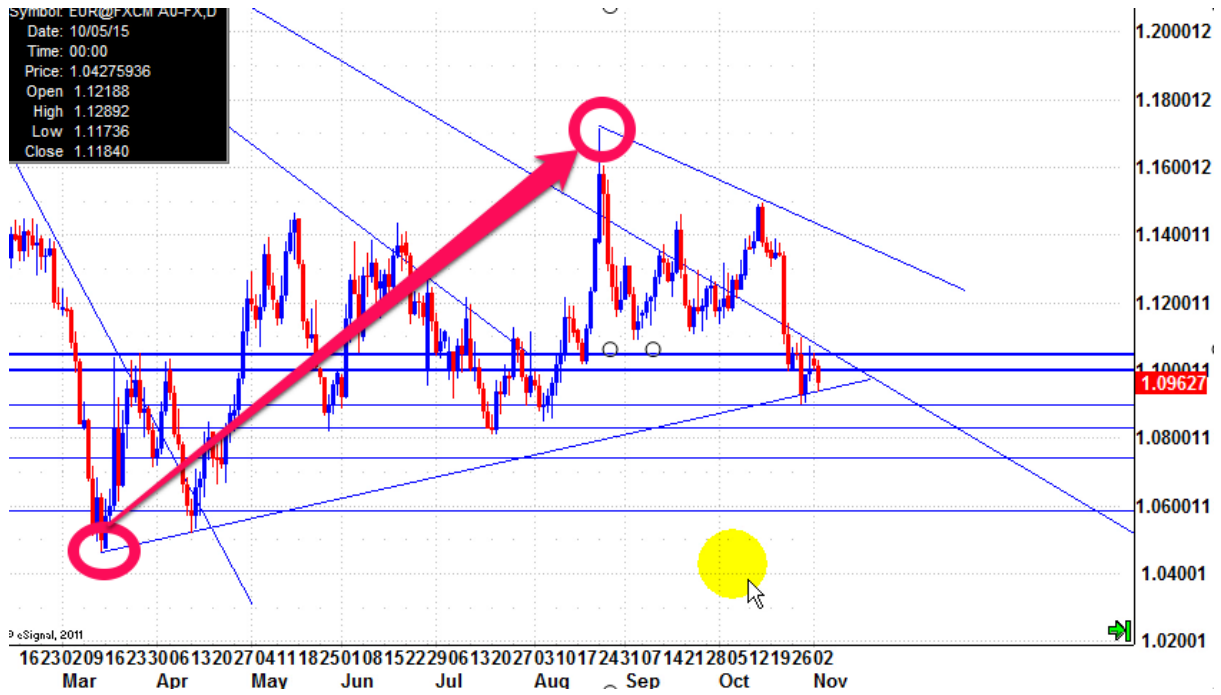

2) Measuring a strong pulse move so we might find some fib extensions to use as targets...

EURUSD

1) Measuring the latest dominating up-move so we can find some fib-retracements...

2) Measuring a strong pulse move so we might find some fib extensions to use as targets...

3) Measuring the latest swing to the downside to find more extension targets
